

## AP TESTING

- Students enrolled in AP courses will be given a copy of the AP Bulletin in February
- Students who wish to test in May must sign up through their AP course instructor during the week of March 5—March 9
- Students with documented disabilities who request a review from the College Board for AP testing accommodations must do so no later than February 14.
- Students who have already been approved by the College Board for accommodations must submit a request for AP testing accommodations no later than February 24.
- The cost for each exam will be \$95. This includes a surcharge to fund costs of administering the test at St. Francis.
- Students will submit checks for the test fee to the AP instructor from April 2—5. Students taking multiple exams can include all fees on one check.
- Any test ordered after April 13 requires an additional \$50 late order fee to be paid by the student.
- No tests may be ordered after April 20. All rosters are final as of this date. No student may drop or add a test as of April 20.
- A student who is ill on the day of the test may test during the late testing period, May 23-25, if he/she provides a doctor's note and immediately requests a late test order.
- Student athletes who have a conflict with a conference, regional, or sectional *championship* match may request testing during the late testing period.
- Once a student has ordered a test in March, he/she must pay a penalty fee of \$15 if he/she cancels in April. St. Francis will be billed by AP for each unused test.
- Please note that students in AP courses are not required to take the exams in May.
- A student who chooses to take an AP exam should be performing very well in his/her AP course and be very comfortable with standardized testing.
- Throughout the school year, students should test their knowledge of AP material by practicing on sample test questions both inside and outside of class.
- Since AP teachers cannot always cover every topic that may be on an AP exam, students who want to perform well on AP exams usually have to do additional work on their own. Information on AP courses and exams questions is available at [www.collegeboard.com](http://www.collegeboard.com).
- Senior students should check with their prospective colleges about their AP credit policies. A link to college AP policies can also be found on the *college profiles* at [www.collegeboard.com](http://www.collegeboard.com).
- For further information, students should see Mrs. Rigney, AP Test Coordinator, or the AP instructor.
- The following AP exams will be administered by St. Francis on the following national test dates. Tests can only be administered on these dates and times. Students will be notified of the exact location of tests in late April.
- Week 1
  - Monday, May 7            Chemistry            8 AM            Psychology        12 PM
  - Tuesday, May 8        Spanish Language    8 AM
  - Wednesday, May 9    Calculus AB/BC      8 AM            Studio Art        12 PM
